HOBSONVILLE POINT
Moments away, a world apart.

WELCOME TO HOBSONVILLE POINT

Congratulations. You've made the first step towards purchasing a brand new home in Hobsonville Point, Auckland's newest and fastest-growing suburb.

TYPES OF HOMES FOR SALE

Every new home at Hobsonville Point has been architect-designed to cater for modern life in Auckland; to maximise space, minimise demands on our time and bank balance (and the environment), and give us that connection with nature and our community that makes life so much richer.

A strong community is a diverse one, so we're building a range of homes to suit all ages and stages. The way we do this is by partnering with a master developer for each precinct. We and the developer then select building companies that will provide a variety of homes. Each building company works with different architects and designers to create different plans, using a range of materials. This creates a varied streetscape, but more importantly, provides choice for a broad cross-section of homebuyers.

Apartments

Apartments offer residents a compact living arrangement that frees up time and money with their no-fuss, low maintenance requirements. They're generally sited close to shops and transport routes due to their higher-density form. Apartments are available as a single home amongst many in an apartment building or block, or as a walk up whereby two homes are allocated to a building: one below, and one above (accessible via a staircase).

Terraces

Terraces are often referred to as townhouses. They take up less land than a traditional standalone home, compensated for by their height so you get more out of your budget (and better views). Terraces allow for separation of private and shared living spaces across multiple floors.

Duplex

A duplex is one of two terraced houses that share an adjoining wall. They have all the advantages of a standalone terraced home for a fraction of the price. Like the standalone terrace, they also allow for separation of private and shared living spaces across multiple floors.

Standalone

Standalone or detached homes are designed and built with young and larger families in mind. These homes are bigger than the higher-density homes available at Hobsonville Point, with a land area closer to that of a typical New Zealand suburban home, and generally include private outdoor backyards and living spaces.

HOMESTAR RATING SYSTEM

Each new home built as part of Hobsonville Point must achieve a six Homestar rating or above. Homestar is an independent and industry-recognised standard of a building that is overseen and administered by the New Zealand Green Building Council. The rating system promotes the high-quality design and build of new residential homes ensuring they are warmer, drier, healthier and cheaper to run than a standard home built to the New Zealand building code.
